Why are the rates different for different vehicle categories?

Vehicles are categorised for the welfare of road users. This categorisation is primarily based on the size and load they carry and damage done to the road and type of use (commercial/personnel) of a vehicle.

Why concessions to local/frequent users are different?

Concession to local/frequent users are extended as welfare measures. There may be variation in the concessions available as these have been provided at different times under different fee rules and provisions of concession agreement.

Why full use fee (toll) is to be paid although we travel a small length on the project road?

In India, the tolling is generally under the open system, whereby fee payable is a fixed amount based on the length of stretch under one project which is normally 60 kilometers. If a stretch is of lesser length, user fee of actual length only is collected.

What is normal minimum distance between two adjacent Toll Plazas?

As per the fee rules 2008, the spacing between two adjacent toll plazas should be 60 km.
